Input Name & IP Address Screen

Waiting For Host To Start Game Screen

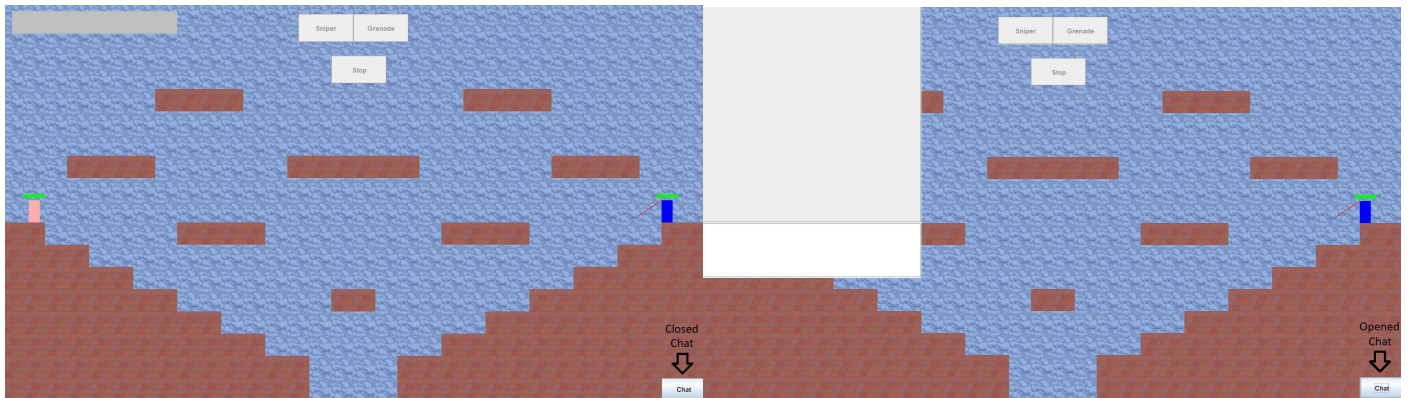

Gameplay

- The Host will begin on the left side of the map and will have the 1st turn
- The Client will begin on the right side of the map
- During the opponent's turn, player will be unable to move and must patiently wait until their turn
 - Buttons are disabled while waiting
- Players may move using the arrow keys
 - However, distance is limited per turn (300px)
 - Player is unable to move further when the Displacement Bar is full
- Select Stop To Select A Weapon
 - Use the mouse to aim & Left Click to fire
- Turn switches when player selects End Turn or when player fires their selected weapon
- Falling In The Middle will result in death
- Defeat the opponent's character to Win!
